

## Product Data Sheet

# Assured Degreaser FS

### Product Description

This mildly alkaline detergent with excellent grease-cutting properties is particularly useful for the first stage of two stage cleaning processes as it will not inactivate the disinfectants used in the second stage.

### Product Features

- A general purpose heavy duty detergent specially formulated for use in the food industry for the removal of food soiling from most hard surfaces.
- Can be used for cleaning walls, tiles, floors, tables, conveyerised equipment, food processing plant, vehicle interiors, etc.
- The product will not inactivate the quaternary ammonium compounds commonly used in food processing disinfectants and sanitizers. This is particularly important for two-stage cleaning where an intermediate rinse may be incomplete.

### Directions for Use

- Apply via pressure washing system and mobiles using 1% to 2% solutions.
- For manual use remove gross soiling and brush on diluted product, between 1% and 5% depending on the degree of remaining soil. Optimum temperature 40°C to 60°C.
- Rinse away with clean water.

### For Use in Scrubber Driers

- Use rate: dilute 2% in warm water, add to the detergent tank.

### Shelf Life

- It is recommended that this product is used within 12 months in the UK climate and within 6 months in warmer climates. Do not allow to freeze.

### Environmental Hazards

- Neat product will cause damage to plant and animal life.
- Do not allow large quantities of neat product to enter surface waterways as serious ecological damage may be caused.
- In the event of a large spillage, contact the local water authority or Environment Agency immediately.
